

Environmental Policy

National Concrete Solutions (NCS) is committed to the sustainability of the environment which may include the prevention of pollution and protection of biodiversity and the ecosystem, sustainable resource use and waste resulting from its work activities.

It is the Policy of NCS to make every reasonable effort to prevent impacts, protect the environment and implement strategies aimed at the reduction of environmentally impacting work practices.

NCS is committed to improving its environmental performance by aiming to have

“No Environmental Harm” resulting from its operational activities.

NCS Environmental Policy is to:

- Comply with relevant Environmental Legislation, including Acts, Regulations, Notices, Standards and Codes of Practice and ensure that any changes to Legislation, including Acts, Regulations, Notices, Standards and Codes of Practice that effect NCS, its Workers and the environment will be communicated accordingly.
- Provide suitable resources to ensure that the Environmental System and documentation is maintained and continually improved and that aspects and impacts are effectively identified, controlled and mitigated through provision of the latest system document revisions and training in the use of system documentation.
- Set Company wide Objectives and Targets that meet the requirements of this Policy. Objectives and Targets will be continually monitored and measured and organisational progress towards these targets reported to Senior Management on a regular basis. The measurement of Objectives and Targets will form the basis for continuous improvement initiatives across the NCS organisation to reduce and eliminate environmental harm.
- Ensure that all Workers understand their Environmental obligations and responsibilities of this Policy through inductions, training, position descriptions, provision of environmental materials and other methods deemed necessary by Management.
- Review this Policy by Senior Management on an annual basis in order to establish and maintain its relevance and appropriateness in meeting the NCS Objectives and Targets and relevance to the organisation’s environmental activities.

It is the responsibility and expectation that all NCS staff will actively promote and implement the objectives of this Policy and work toward **“No Environmental Harm”**.

This Policy will be displayed at NCS offices, available to interested parties as appropriate and available on project sites.

Rob Godson
Managing Director
